EDUCATION

Bachelor of Science in Computer Science

Sant Gadge Baba Amravati University

WORK EXPERIENCE

Front End Angular Developer

Infotel India PVT LTD

July 2021 - Present

Bengaluru, Karnataka

- Collaborated with designers and backend developers to transform wireframes and mockups into interactive and responsive web pages.
- Implemented RESTful APIs and integrated data from backend services to create dynamic content for web applications.
- Utilized the Angular framework to build modular and maintainable front-end components, enhancing code reusability and scalability.
- Applied responsive design using Bootstrap and Material Design, elevating user experience on various devices.
- Fixed bugs and addressed maintenance tasks to ensure smooth operation and optimal performance.
- Designed and implemented forms and card components, enhancing user interactions and visual appeal.
- Implemented route protection using AuthGuard, ensuring secure navigation and access control.
- Managed version control and code collaboration using Git and GitHub, ensuring efficient teamwork and version tracking.
- Developed functionality for API calls, displaying and filtering data to meet user requirements.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, SCSS, JavaScript, TypeScript
- **Front-End Frameworks:** Angular, Bootstrap, Material Design, Basic React
- **Version Contro:** Git, GitHub
- **Agile Methodology:** Familiar with Agile principles
- **Project Management Tools:** Jira
- **Cloud / Backend Services:** Firebase, JSon Server, Basic Node-Js, Express-Js, MongoDB

ACHIEVEMENTS

- Starting at Infotel India was a game-changer for me. In no time, I learned so much! It was like a special time of learning, and what I learned there feels like a big achievement to me. Every challenge was a chance to do better, and every lesson was a win. I'm thankful for the experience and excited to use what I've learned in the future!

PERSONAL PROJECTS

Hotel Management Website

| [Host Link](#)

- I Create a comprehensive hotel management website featuring user registration and login, hotel search- ing and booking, cart management, and secure authentication with features like password reset.
- Owners can register, add, update, and delete hotels. Additionally, an admin dashboard allows administrators to access user, owner, and hotel details for efficient oversight.

Food Recipe Website

| [Host Link](#)

- i Create a Awesome Recipe Website Using MealDB-API Featuring Responsive Design,Smart Filtering,Meal Details Page,Category Meals,Handling Big API Data,Optimized Images,Cart Management,Reduced calls with caching,Search Functionality,Angular Bootstrap,Netlify Hosting: Taking the app live for a global audience on Netlify.
